Phone card (SIM card) for your mobile phone can be bought at the above mentioned locations and at a newsagent's. There are two types of SIM cards:

**Postpaid card:** these have to be activated by calling the voice machine at the number 777 or by calling any subscriber number. If the card is not activated, you will not be able to receive calls.

**Prepaid card:** you can use them right away and when you spend your phone credit, there are several options for mobile phone top-up:

- Electronic top-up - via terminals at authorized distributors
- Top-up cards - available from kiosks
- Online top-up - via the operator's website
- SMS top-up - by sending an SMS from another telephone
- Or directly at the above mentioned location of mobile operators

## INTERNET

For the information on the prices of the Internet, please contact the above-mentioned operators. Free WI-FI is available at Valjevo Department, as well as at numerous public places in the city.
